

SUMMARY

Performance-driven Full-Stack Engineer with deep expertise in TypeScript, React, and robust database systems including PostgreSQL and MongoDB. Proven track record in architecting scalable web applications and translating complex UI/ UX wireframes into high-fidelity, functional code. Dedicated to technical excellence with a clear career objective to lead the development of sophisticated APIs and intuitive user interfaces for cloud-native data platforms.

SKILLS

Front-End: JavaScript, React, Vue, node js, Redux, TypeScript, jQuery, HTML5, CSS3, tailwind, chakra ui

Back-End: Node Js, MongoDB, SQL

Tools & Methods: Git, GitHub, Mobile/Responsive Development, Jest, TDD, Tools, socket.io

EXPERIENCE

- **SkillPulse**, AI-powered learning platform connecting learners with verified experts — live video sessions, real-time collaboration, structured learning plans, and community groups in one place [here](#)
- **SaaSForge**, A full project management platform for teams — Kanban boards, role-based access, task assignments, activity tracking, and public client-sharing links, all in one workspace. [here](#)
- **ChattyApp**, This project is a real-time chat application designed for seamless communication between friends. It is built with **React.js** for the frontend, **Node.js** and **MongoDB** for the backend, and leverages **Socket.IO** for real-time messaging. [here](#)

Remote

Full stack software developer | CMOS tech | Sept, 2022 – June, 2023

- Built complete web features connecting the user interface to the server and database.
- Cleaned up and reorganized code to make the system faster and easier to work with.
- Mentored the team and set clear technical direction, helping everyone work faster and stay motivated..

FrontEnd software developer | Bofrak POS | Jan, 2024 – Nov, 2024

- Made React and Vue work smoothly together in a busy Point-of-Sale system.
- Worked with a remote team to build features that met both design and technical requirements.
- Helped teammates grow by teaching them better ways to build and structure web components.

FrontEnd software developer | Chrilan tech | Jan, 2025 – July, 2025

- Built the foundation of web apps using React and Vue, keeping them fast and well-organized.
- Turn detailed designs into clean, working code that's easy to maintain.
- Led internal efforts to help the team level up their skills and work better with the back-end.

EDUCATION

Remote Full Stack Web Development Program, Full Time | MICROVERSE | San Francisco, California, United States(remote) March, 2022 – December, 2022

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development , Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF ZAMBIA | Bachelor of Library & Information Science | Economics | Jan, 2018– Feb , 2020 | Lusaka , Zambia

Relevant coursework: Web Development, Database Systems, Data Structures, Algorithms, Computer Networks.
